Wilson

INDEX TO VOLUME XVIII

GENERAL ALPHABETICAL INDEX

Entries from the Synopsis of Periodical Literature are indicated by S. (Synopsis); from the Analysis of Current Electrochemical, Chemical and Metallurgical United States Patents by P. (Patents).

A

Abrasives, Production 540
Absorbing process for toluol 145
Absorption by colloids 516
Acetaldehyde, Manufacture from acetylene. Hibbert. (P.) 41
Acetone controlled by the Government .. 370
Acid concentrating, Outlet for. Dye and Lucas. (P.) 99
Acids, Effect of on wood 528
Acid elevator, Automatic 553
Acid, Lactic, Manufacture of. Saxe. (P.) 99
Acid liquor, Sulphite. Jensen. (P.) .. 154
Acid, Sulphuric acid situation in U. S. Skinner 82
Acidity, Determination in water, leach liquors, mine waters, etc. Rankin 96
Addition agents for copper electroplating.
—— Hogaboom 508
—— Mathers 508
—— Witherell 510
Addition agents in flotation. Thornberry and Mann.....71, 249
Africa, Iron reserves 572
Agitator, For gas producers 102
Air drying. Moore 129
Air Nitrates Corporation 506
Alabama, Mineral resources. Smith 449
Alabama Power Co 472
Alcohol from sulphide pulp and paper liquor. Hendrick 360
Alcohol, Laws bearing on importation of distilled spirits 11

Alcohol, Manufacture. Lacy (P.) 209
Allied Purchasing Commission 13

ALLOYS:
——Acid-proof. Irmann (S.) 261
——Aluminium. McAdams. (P.) 101
——Bibliography of Estes 312
——Chromium. Becket. (P.) 208
——Cobalt, Chromium tungsten and molybdenum. Haynes 541
——Determination of temperatures by eutectics. Stienmetz (S.) 207
——Iron-Cobalt. Becket (P.) 208
——Magnesium aluminium 285
——Stellite Haynes 541
——Thermoelectric force of. Hunter and Bacon. 512
——Tungsten. Goldschmidt and Weil. (P.) 208
Alternating-current electrolysis. Weiser (S.) 548
Alum from clay. Jackson. (P.) 316
Aluminium, Alloy. McAdams. (P.) ... 101
Aluminum Co. of America, Power development 502
Aluminium, Metallography of. Anderson 172
Aluminium sheet. Annealing and recrystallization of cold-rolled. Anderson. 523
Aluminium, Value of 1917 production .. 307
Alunite, Potassium sulphate from 391
Amalgamation and cyaniding. Allen ... 515
American Ceramic Society, New York State Branch 28

AMERICAN CHEMICAL SOCIETY:
——Delaware section meeting 287
——New York Section meetings...171, 289
——Officers 210
American electrochemical industry, Future of. Maher 513

AMER. ELECTROCHEMICAL SOCIETY:
——New York Section meetings....171, 289
——Southern convention 500
——Spring meeting 231
——Spring meeting and Southern trip, with map 335
American Engineering Service Committee 231
American Institute of Chemical Engineers:
——Presidential address. Thompson... 21

AMER. INSTITUTE OF MINING ENGINEERS:
——Expell enemy aliens 651
——N. Y. Section:
—— Annual meeting 571
—— Meeting 394
—— Program 63
—— Report 227
——Summer meeting 575

American Iron and Steel Institute:
——Meeting 531
——New York meeting 628
American Smelting & Refining Co. vs. Bunker Hill and Sullivan 443
American Society for Testing Materials:
——Annual meeting 569
Ammonia and cyanide. Starke. (P.) ... 423

AMMONIA:
——Demand for munitions 298
——License required to handle 64
——Oxidation and synthetic process in Great Britain 77
——Physical constants of. Osborne and Van Dusen. (S.) 653
——Recovery from gas. Unger. (S.) .. 373
——Recoveries from tar. Woodward... 299
Ammonia refrigeration in munitions. Morey 389
—— Williams 390
Ammonium nitrate manufacture. Blom. (P.) 423
Ammonium nitrate, New cyanamid plant to make. 1
Anaconda Copper Mining Company, Producing ferromanganese 391
Anaconda, Fine-grinding at. Wiggin. (S.) 653
Anaconda, smoke purification 392

ANALYSIS:
——Acidity in water, leach liquors, etc. Rankin. 96
——Carbon, Jackson. 564
——Ferrosilicon. Mammen. 438
——Ferrosilicon. Anger. 512
——Ferrosilicon. Anger. (S.) 610
——Natural gas 640
——Phosphorus in high-speed steels. Sheffield and van Valkenburgh 61
——Sulphur burner gases. Williams. (S.) 314
——Titanium in ferrotitanium. Roehl. (S.) 38
Annealing and recrystallization of cold-rolled aluminium sheet. Anderson. 523
Anode, Arrating. Hanley. (P.) 484
Anode, Method of suspension. Antisell. (P.) 375
Antimony, Russian production 370
Antimony, Tariff Commission conference. 644
Appalachian South, Mineral resources.. 449
Arizona copper mill, Increase of mill capacity. 566
Aromatic nitriles by catalysis. Mailhe. (S.) 545
Aromatics, Solubility on liquid sulphur dioxide. Moore, Morrell and Egloff 396
Arsenic, smelter by-product 284
Ashes, Electric hoists for 486
Australia, Proposed iron and steel works for Queensland 519
Automatic furnace control 488

B

Baily electric furnace 156
Ball-milling, Theory and practice of peripheral discharge. Hines.... 229
Ball-mill crushing at Inspiration, Miami and Anaconda. Kennard. (S.). 653
——Wiggin. (S.) 653
Ball mill tests at Inspiration. Van Winkle. (S.) 207
——Channing 229
——Gottsberger 229
Barium sulphide. Prisk and Harrison. (P.) 423
Belt slip, Cost of 426
Benzine-naphthalene dyes. Grünhagen. (P.) 373
Benzol, As motor fuel in England. Clegg. (S.) 39
Benzol, Purification of crude. Kipper. (P.) 210
Benzol-recovery plant operation, Laboratory methods for. Sperr..... 169
Bibliography, Physical properties of copper. Merica 409
Bismuth, Chemically pure. Mylius and Groschuff. (S.) 38
Bismuth, Russian production 370
Bismuth, Smelter by-product 284
Blast furnace flue dust, Sintering. Boynton and Sands. (P.) 262
——Dwight Lloyd 319
Blast furnace gas, Potash from. Leigh. (S.) 429
——Chance 420
Blast furnaces, Potash from. Berry and McArthur. (S.) 547
Blast-furnace slags, Viscosity. Feild. (S.) 652
Boiler plates, Fatigue failure. Wolff. (S.) 313
Bombardment, Paris, Long-Range. Tomlin. 622
Bone-ash cupels. Dewey. 228, 260
Bonus systems 241

BOOK REVIEWS:
——Battle, Lubricating Engineers' Handbook 489
——Blaisdale, Principles of Quantitative Analysis 266
——Berry, Eye Hazards in Industrial Occupations 489
——Bullens, Steel and its Heat Treatment. 657
——Ferry, Shook and Collins, Practical Pyrometry 45
——Finding and Stopping Waste in Modern Boiler Rooms 213
——Getman, Standard Table of Electrochemical Equivalents and Their Derivatives, With Explanatory Text 321
——Hendrick, Everyman's Chemistry.. 46
——Hering, Standard Table of Electrochemical Equivalents and Their Derivatives, With Explanatory Text 321
——Herington, R. Powdered Coal as a Fuel. 657
——Kover and Hanson, Diseases of Occupation and Vocational Hygiene. 657
——Loff and Rushmore, Hydro-Electric Power Stations 489
——Lunge, Coal-Tar and Ammonia... 213
——Lunge, Sulphuric Acid and Alkali 214
——Meade, The Technical Analysis of Brass and Non-Ferrous Alloys.. 266
——Mellor, Modern Inorganic Chemistry 554
——Methods for the Technical Sampling and Analysis of Gases 657
——Report of the Royal Ontario Nickel Commission 322
——Richards, Metallurgical Calculations, Part I, Revised 45
——Richards, J. W. Metallurgical Calculations. 657
——Rodenhauser and Schoenawa, Electric Furnaces in the Iron and Steel Industry 489
——Rogers, Laboratory Guide of Industrial Chemistry 46
——Scott, The Journal of the Institute of Metals 489
——Smith, Life of Robert Hare 213
——Steinmetz, Theory and Calculation of Electric Circuits 266
——Steinmetz, Theory and Calculations of Electrical Apparatus... 267
——Fahrenwald, Testing for a Flotation Process 213
——Thun, A Practice Book in Elementary Metallurgy 46
——Villavecchia, Treatise on Applied Analytical Chemistry 488
——Wagner, Coal Gas Residuals 554
Booth-Hall electric steel furnace 211
Brass, Electric furnace for melting. Gillett and Rhoads 583
Brass furnaces in commercial use 584
Brass melting, Johnson. (P.) 315
Brass special spelter 135
Brazil, Iron resources 571
Brick, Chrome, Disadvantages in copper reverberatory furnaces 20
——Dolomite refractory. Handy and Isham. (P.) 42
——Fire, Palmerton refractories. Fiske. (S.) 97
——Nonpareil, Insulation test on steam drums 44
——Refractory, Furnace for testing. Montgomery. 18
Briquetting machines. Scrap metal... 157
British Nitrogen Products Committee, Work of 77
British non-ferrous metal industry act... 580
Bucket elevator, Hints on operation. Nichols. 229
Bully Hill Copper Mining & Smelting Co. Electrolytic zinc. (P.) 485
Bunker Hill suit ended 443
Bureau of Mines, Seattle station 625
Burner, Fuel oil 156

Butte & Superior vs. Mineral Separation 570
By-product coke, Development in, Walker (S.) 371

C

Cadmium, Removal from zinc ore. Fiske. (P.) 551
Cadmium, Smelter by-product 284
California kelp operations of the Hercules Powder Co. 576
California, Electrochemistry and metallurgy in 624
——Platinum from placer 392
California Railway Commission 624
Calumet & Arizona Mining Co., Annual report 627
Canada, Advances in metallurgy. Stansfield. (S.) 481
——Electric furnaces in 317
——Metal production in 1917 61
Canadian lead situation 283
Canadian mineral production 624
Canadian Mining Institute, Montreal meeting 337
Canadium, Composion of 81
Cane sugar, Decomposition point 301
Canning compounds. Schmidt and Andres. (P.) 317
Capital and labor, Important developments relating to 393
Carbon cell, Experiment. Reed. 512. (S.) 610
Carbon dioxide, Determination of loss due to low 551
Carbon, Rapid determination. Jackson 564
Car loader, Portable 157
Carolina Light & Power Co. 472
Catalysis, Aromatic nitriles. Mailhe. (S.) 545
Catalysis, Dimethylaniline. (S.) 545
Catalyzer, Oleates catalytic catalysts. Ellis. (P.) 208
Causticizing soda ash with lime, Continuous process 376
Causticizing soda liquors. Goodner 169
Caustic liquors, Action on steel, Stromeyer, Worsley. (S.) 372
Caustic soda, Production. Bradley. (P.) 99
Celite, Use in filtration 101
Coll, Experimental carbon. Reed. 512. (S.) 610
Celluloid, Effects of heat on. Stokes and Weber. (S.) 38
Celluloid incombustible 446
Cement, Potash from. Anderson. (P.) 99
Cement, Potassium sulphate from 391
Central station and electrochemical products. Winder 354
Central stations and electrochemistry. St. John 621
Ceramics and the war. Washburn 253
Cercle de la Chimie 81
Charcoal precipitation of aurocyanide. Allen. 642
Chemical Alliance, Inc 120
——First annual meeting 171
——Formation 95
Chemical apparatus, Wood for. Schorger 528
Chemical companies, The need for organization in new. Hemingway 180
Chemical market, Review of 1917 46
Chemical industries in the Southern States. Meade 466
Chemical market and price list, 51, 106, 158, 215, 268, 323, 379, 428, 491, 556 612
Chemical drying. Moore 131
Chemical Trade specification 479
Chemistry and the war. Jackson 168
Chemistry in the petroleum industry. Burton 647
Chief metal testing. Erichsen. (P.) 263
Chihuahua smelter, reopened 607
Chile, Potash from nitrate 248
Chimie & Industrie 252
China, Iron reserves 572
Chlorides, Effect on flotation ores. Thornberry and Mann 249
Chloridizing spent pyrite. Sutcliffe. (P.) 262
Chlorination of pitchblende for radium. Cable and Schlundt 460
Chlorine production. Kipper. (P.) 374
Chlorine, Products from hydrocarbons. Blanc. (P.) 100
Chromium. (See Stellite)
Chlorine. Tolual derivatives Gibbs. (P.) 100
Chrome brick, Disadvantages in copper reverberatory furnaces. Pyne. 228
Chromite and Kaolinite, Freezing point curve. Hofman 228
Clay, Alum from. Jackson. (P.) 316
Clay, American, For graphite crucibles. 265

COAL:

——Carbonization, Illinois. Ovitz. (S.) 548
——Distillation. Foxwell. (P.) 374
——Power from 61
——Storage stations for conservation 12
Coal-washing, Use of culm and other waste materials. Crosby 25
Cobalt. (See stellite)
Coke, By-product plant. Colorado Fuel & Iron Co. 567
Coke, Developments in by-products. Walker. (S.) 371
Coke, Hydrocarbon. Perry. (P.) 423
Coke-oven gas measurement for soaking pits. 425
Coleman oil burner 156
Colorado Fuel and Iron Co. By-product coke plant 567
Colorado Scientific Society. Officers for 1918. 81
Colorado, Smelter and Ore Sales Investigation. 365
——Report 284
Colorado smelter, By-products from 284
Columbus Power Co. 473
Combustion, Loss due to low-carbon dioxide. 551
Competition, Factors in world trade 224
Composition of rail steel. Cram. (S.) 313
Concentration, Burro-Mountain concentrator. 8
Concentrates, Analysis by microscope. Thomas and Apgar 514
Consolidated Arizona Smelting Co., Annual report 626
Conversion table, pounds to grams. Gerber. 60

COPPER:

——Alloys with nickel and tungsten. Irmann. (S.) 261
——Concentration, Burro Mountain concentrator. 8
——Comparison of nitric acid and leaching processes. 293
——Copper-lead smelter schedule 367
——Corrosion of 359
——Determination, Ammonia method 203
——Determination, Sodium tartrate 203
——Determination, Sulphuric acid method. 203
——Determining minerals in partly oxidized ores. Cremer 644
——Diseases of 359
——Effect of boiling sulphur on. Hayward. 650
——Effect of heat-treatment on physical properties 303
——Effect of impurities on physical properties 303, 357
——Effect of, in steel. Heyward and Johnston. 260
——Electrolysis of foul sulphate. Antisell. (P.) 423
——Electrolytic, Effect of iron sulphate. Kern. 507
——Electroplating baths. Mathers 508
——Metallurgy in 1917 4
——Minerals, sulphur dioxide method for determining in partly oxidized ores. Van Barneveld and Leaver. 203
——Nickel-copper separation. Guess. (P.) 424
——Nitric acid process for. Westby 290
——Physical Properties of. The factors by which they are Affected. Merica. 121, 192, 303, 357, 409
——Refining, Disadvantages of chrome brick in reverberatory furnaces. 20
——Reverberatory furnaces, Disadvantages of chrome brick in. Pyne. 228
——Separation of, during concentration of matte. Stahl. (S.) 313
——Sulphur dioxide method for analysis of partly oxidized ores, van Barneveld. 390
——Smelting, Reverberatory construction at Hayden plant of A. S. & R. Co. 8

Corrosion:

——Parket rust-proofing process 264
——Rusting of rails. Watts 510
Côte and Pierron electric zinc-smelting process. 17
Cottrell system, Smoke purification at Anaconda. 392
Council of National Defence:
——Industrial Service Section 13
——Reorganized. 12
Culm, Use of. Kershaw 25
Cuba, Iron reserves 572
Cupels, Bone-ash. Dewey 228, 260
Current control. Seede. (P.) 315
Cyanamide, Sem. (P.) 423
Cyanamide manufacture in Great Britain 77
Cyanamide plant at Muscle Shoals 1
Cyanide and ammonia, Starke. (P.) 423
Cyanide, Chemical and mechanical loss 517
Cyanide mill schedule 366
Cyanide solution, Milling in. Allen 515

D

Dayton Engineers Club, New home 63
Depolarization by sulphur dioxide, Thompson and Sullivan 178
Dextrose, Decomposition point 301
Dilatometer, a Gas. Moore and Davies. 301
Dimethylaniline by catalytic dehydration. Mailhe and de Godon. 545
Distillation, Dry, Experimental retort for. Coombs 225
Ferrite insulating material 103
Drying and evaporation, Some problems in. Sadler and de Beers 543
Drying, General aspects. Moore 128, 186
du Pont Co. vs. Walter Masland 64
Dyes, Sulphur. Heinmann. (P.) 155
Dyestuff Association, Organized 120, 479

DYESTUFFS:

——Beta-naphthol benzoate. Blieberger. (P.) 373
——Blueish-green vat dyes. Kardos and Narviasky. (P.) 209
——Manufacturers organization 289
——Phthalic anhydride. Greenley. (P.) 484

DYESTUFFS—*Continued:*

——Vat dyestuffs. Schmidt. (P.) 483
—— Iljinsky. (P.) 484

——Potash from. Bibliography. Buck. 33
Ferromanganese, Produced at Anaconda. 391
——Production in Alabama. 512
Ferrosilicon, Analysis of. Anger 512, (S.) 610
——Analysis of. Mannen. 438
——Production in Tennessee. 505
Ferrotitanium, Determination of titanium. Rochl. (S.). 38
Ferrotitanium, Rossi. 118
Ferric sulphate, Fused. Kipper. (P.). 100
Ferrous-titanium-chloride. 120
Fertilizer industry under license..... 287
Figures, Precise use of. Thompson.... 169
Filter, Automatic. Brooks and Duncan. 228
Filter-Cel, Infiltration 101
Filter press electrolyzer. Shriver. (P.). 424
——Simple washing. Sperry. 352
——Sperry. 140
——Washing in. 520
Filtration, Basalt lava for. 373
Filtration, Developments in. Jordan.. 101
——Plate-and-frame. Sperry. 258
Fire foam. 486
Fire protection for chemicals and oils.. 486
Fish oil, deodorizing. 608
Flotation litigation. (See Minerals Separation.)

FLOTATION:
——Early practice of. Thomas. 565
——Effect of addition agents. Thornberry and Mann.....71, 249
——Groch machine. Groch and Simpson. (S.) 373
——In gold and silver metallurgy..... 2
——Machine. Fahrenwald 487
——Molecular physics of. Coghill and Anderson. 595
——Review of 1917 practice..... 5
——Sperry. A Eureka, Colo. 170
Fractures, Fatigue, in rails. Howard. 230
French Chemists' Club. 81
Fuel oil now under licenses. 178

Furnace: Blast, Volume regulator for engines. Loewenstein. 29
Furnace control by optical pyrometers. Fenner. (S.) 481
——Application to industrial processes. Etchells. 480
—— Greaves-Etchells. 480
—— Steel refining. Bibby. 480

FURNACE CONTROL—*Continued:*
——Automatic control. 488
——Baily automatic heat-treating..... 156
——Booth. (P.) 315

FURNACE, ELECTRIC:
——Booth-Hall electric 211, 510
——Bureau of Mines. 583
——Dickson. (P.) 263
——Distribution of, Canada. 317
——For standardizing thermocouples... 347
——Fractionating hydrocarbons. Hirt. (P.) 98
——Fulton's zinc. 539
——Funck. (P.) 315
——Furnace control. Cleming and Hill 480
——High-temperature tungsten or molybdenum resistance. Ruder.... 228
——Induction. Wyatt. (P.) 374
——Johnson. (P.) 315
——Log of tool steel furnace. Suverkrop (S.) 371
——Nitrogen fixation. Scott. 504
——Price. (P.) 315
——Rocking, for brass. Gillett and Rhoads. 583
——Seede. (P.) 316
——Sperling. (P.) 315
——Steel turnings for. 372
——Valentine. (P.) 315
——Vom Baur. (P.).....263, 510
——Water-cooled linings. Price. (P.)... 315
Furnace, Reverberatory, Disadvantages of chrome brick 20
Furnace, Testing, For refractory materials. Montgomery..... 18

G

Gas, Analysis of natural. 640
Gas attacks, Defensive measures against. Tomlin. 636
Garbage, By-products from. 64
Gas, Determination of in metals. Ryder. 503
Gas, Measurement of. 425
Gas, Pressure governor for. 552
Gas, Recovery of ammonia. Unger. (S.) 373
Gasoline, Cost of refining. 257
Gas producers, Floating agitator..... 102
Georgia, Mineral resources. McCallie.... 451
Georgia Railway & Power Co. 474
Germany, Development in chemical industry. (S.) 38
Gibbs medal award. 370
Glassware, Tests of domestic and foreign. 653
Gold, Absorption in Bone-ash cupels.... 260

GOLD AND SILVER:
——Charcoal precipitation. Allen..... 642

——Zinc lead fume, treatment, Nitchie, (P.) 550

AUTHORS' INDEX

ALLEN, A. W. Milling in cyanide solution 515
——Charcoal precipitation of aurocyanide 642
——Mill pumping systems: Frenier pump capacities 60
Anderson, C. O. and Will H. Coghill. On the molecular physics of ore flotation 595
Anderson, Robert J. Annealing and recrystallization of cold-rolled aluminium sheet 523
——Metallography of aluminium..... 172
Apgar, Frederick W. and Kirby Thomas. Approximate determination of the minerals in concentrates by means of the microscope..... 514

BANCROFT, W. D. Sign of the live electrode 503
Bathon, Wingrove. The President's readjustment and reconstruction commission 573
Brace, P. H. Resistivity of porcelain and magnesia 503
Brooks, Benjamin T. Fats and fatty acids from petroleum..... 388
Burton, William H. Chemistry in the petroleum industry..... 647
Buchanan, W. and George H. Stanley. The design and operation of a small Kjellin furnace.....349, 416
Buck, E. C. Bibliography on the extraction of potash.....33, 90

CABLE, MRS. RAY and Herman Schlundt. Some experiments on the extraction of radium from American pitchblende ores by chloronation 460
Campbell, E. D. Influence of temperature of measurement on the electrical resistivity and thermo-electromotive potential of solutes in steels 565
Campbell, Edward D. and William C. Dowd. The influence of heat treatment 86
Coghill, Will H. and C. O. Anderson. On the molecular physics of ore flotation 595

Coombs, F. E. A new experimental retort for dry distillation..... 425
Cremer, Felix. Determining copper minerals in partly oxidized ores. 644

DANNERTH, FREDERIC. Defects in industrial rubber goods..... 531
——Rubber and jelutong..... 296
Davies, J. B. and William C. Moore. A gas dilatometer for ascertaining decomposition points 301
deBeers, F. M. and P. B. Sadtler. Some problems in evaporation and drying 543
Dewey, Davis R. Engineers in training. 336
Door, J. V. N. Our April business..... 333
Dowd, William C. and E. D. Campbell. The influence of heat treatment 86
Dunglinson, B. Intensive toluol production. 620

EDGAR, C. T. Potash from wood ashes 537
Egloff, Gustav and Robert J. Moore. Fats and fatty acids from petroleum 308
Egloff, Gustav, and Jac. C. Morrell. The economic position of oil shales. 601
Egloff, Gustav, J. C. Morrell and Robert J. Moore. The solubility of paraffins, aromatics, naphthenes and olefins in liquir sulphur dioxide 396
Estes, Clarence. A bibliography of alloys 312

FAHRENWALD, A. W. A new flotation machine 487
Fairchild, C. O., Paul D. Foote and T. R. Harrison. Standardization of rare-metal thermocouples....343, 403
Fink, Colin G. Electrochemistry and national economy 581
——Our April business..... 333
FitzGerald, Francis A. J. Dr. A. J. Rossi and his work..... 114
Foote, Paul D., T. R. Harrison and C. O. Fairchild. Standardization of rare-metal thermocouples....343, 403
Flinterman, R. F. Electric steel castings 511

GANTT, H. L. Co-ordinating production and transportation..... 278
Gerber, Dwight. Conversion Table: Pounds to Grams..... 60
Gillett, H. W. and A. E. Rhoads. A rocking electric brass furnace.. 583
Glenn, L. C. Electrochemical industries in Tennessee 455
Goodner, Ivan E. Causticizing soda liquors 169

HARRISON, T. R., Paul D. Foote and C. O. Fairchild. Standardization of rare-metal thermocouples. 343, 403
Hayward, Carle R. The effect of boiling sulphur on copper..... 650
Haynes, Elwood. Stellite..... 541
Hazelett, C. W. Storage battery capacities 502
Hemingway, Frank. The need for organization in new chemical companies 180
Hendrick, Ellwood. Alcohol from sulphite-pulp waste liquor..... 360
Hering, Carl. Electrolytic pickling of greasy surfaces 438
——Electrolytic pickling of steel..... 282
Hill, Charles W. Efficiency in industrial research 182
Hongren, O. A. and O. L. Kowalke. Magnesia-silica refractoris..... 508

JACKSON, D. D. Chemistry and the war 168
Sault Ste Marie Civic and Commercial Association. Advantages of hydro-electric power 168
Jackson, W. L. Rapid carbon determination 564
Jeffries, Zay. Grain-size measurements 185
Johnson, Edward Mackay. Recovery of spelter and the treatment of retort residues 135
——Zinc furnace temperatures—11 14
Johnson, J. A. Hydro-electric power in relation to industry..... 462

KERN, EDWARD F. Electrolytic copper 507
——Electrolytic tin 508
Kershaw, John B. C. The use of culm and other waste materials from coal-washing plants for other purposes 25
King, Andrew H. Rubber substitutes... 630
——The Vulcanization of rubber..... 243
Kowalke, O. L. and O. A. Hongren. Magnesia-silica refractories ... 508
Kruesi, Paul J. Our April business .. 333

LANE, FRANKLIN K. Secretary Lane urges water-power development 440
Leaver, Edmund S. and Charles E. Van Barneveld. Sulphur dioxide method for determining copper minerals in partly oxidized ores 203
Lichtenthaeler, Frank E. Intensive toluol production 144, 195
